EDUCATION

University Of Washington Tacoma

Bachelor of Arts in Computer Science and Systems

Tacoma, Wa

Expected : June. 2027

- Minor in Business Data Analytics
- Washington State Opportunity Scholarship(WSOS)

Relevant Course Work:

Obj-Orient Prog 2 with Java, Introduction to Python, Programming Practicum, Data Structures and Algorithms

TECHNICAL SKILLS

Languages & Frameworks: Java, Python, HTML/CSS, JavaScript, React, TypeScript, Node.js, Express.js, Next.js, Go,
Libraries & Tools: Git, npm, CI/CD, Cloud, Pandas, NumPy, Scikit-learn, Cursor, Jira, Supabase, Microsoft Office Suite

PROJECTS

Naruto Character Database | *JavaScript, React.js, Node.js, Express.js, MySQL*

Feb 2025

- Developed a responsive full-stack web application using **React.js**, **Node.js**, **Express.js**, and **MySQL** to manage and display Naruto character information
- Created a scalable **database** schema using **MySQL** to store character details including names, villages, ranks, and abilities
- Implemented **RESTful API** endpoints with **Express.js** to handle **CRUD operations**, enabling seamless data management

Avalanche Rush | *Java*

June 2025

- Collaborated with a team of 3 and designed a playable 2D Java game using a steady input/render loop, **collision detection**, and scrolling parallax-style background, **improving frame smoothness** and user experience.
- Refactored into **reusable classes** and helpers, reducing coupling between rendering, physics, and input;.
- Used data structures (arrays/ArrayLists, timers) and simple algorithms to spawn obstacles and compute scoring.

CLUB LEADERSHIP/ EXPERIENCE

Software Engineering Intern

November. 2025 – Present

Tech Startup Club

Tacoma, Wa

- Collaborated with a small engineering team to build a document based management system for University of Washington Tacoma's Seminars project, using realistic time estimates, regular progress reports, and version-controlled workflows to reliably deliver responsive, accessible features on schedule.
- Built **backend features in Go** and tracked them in **Jira** across 2-week sprints; documented tasks, linked PRs, and closed tickets after tests passed in CI (Go test) to maintain on time delivery.

Technology Camp Assistant Instructor

June 2025 – August 2025

Tech Academy

Seattle, Wa

- Assisted in delivering STEM- focused classes(**Programming**, Web Design(HTML, CSS, JavaScript), Video Game Design) for students.
- **Troubleshoot** laptop and software issues for students, ensuring smooth operation of technology during lessons
- Maintained consistent communication with camp instructors and ensured smooth classroom flow across multiple sites.

Prompt Engineer Intern

June 2025 – Aug 2025

Fourth Gen Labs

Parkland, Wa (Hybrid)

- Mastering **AI** workflows including bias mitigation, prompt auditing, and **research integrity practices**.
- Delivered a AI superhero **presentation** for the Spark Showcase before 70 sponsors, educators, and community guests, demonstrating prompt engineered story telling and **public speaking skills**.
